ADVENTURE

A visit to Montana's Flathead Valley and Glacier National Park offers a four-nation experience unlike any other place in the world, encompassing part of Northwest Montana, Canada, the Blackfoot and Flathead Indian Reservations. This park region is a World Heritage site, a World Biosphere Reserve and the world's first International Peace Park offering hiking for all skill levels, boat cruises, aerial tours, wildlife photography tours and the famous Red Bus tours on the historic Going-to-the-Sun Road.

Recreational and cultural activities are abundant in Montana's Flathead Valley. With many quality outfitters, the choices are endless. Some of the most popular choices include scenic and whitewater river rafting and fly-fishing on the three forks of the Flathead River (longest and cleanest "Wild & Scenic" river in the continental US). These pristine rivers empty into Flathead Lake, which is the largest natural freshwater lake west of the Mississippi River at 32 miles long and 16 miles wide, plus there are more than 1,500 additional lakes in the Northwest Montana region. Miles and miles of forest roads and single-track trails plus one lift serve all mountain biking interests. Horseback riding has a long history in Montana and is still one of the most popular activities today.

Winter brings on a whole new set of adventures with skiing and snowboarding at two resorts, snowmobiling 200 miles of groomed trails, cross country skiing on USFS and resort trail systems, snowshoe tours, ice skating, dog sledding and sleigh rides. These activities set against the mountains and backcountry of beautiful Montana provides the experience that will be the highlight of any vacation or business trip.

Montana's Flathead Valley has rich historical and cultural sites that are a great addition to any itinerary. Highlights include: Conrad Mansion, Hockaday Museum of Art, and the Museum at Central School, bronze foundries, Bigfork Art Galleries/Shopping, Hungry Horse Dam and Native American Ed-Ventures.

Whitefish is proud of their rich timber and railroad heritage where the Stumptown Historical Museum includes many railroad artifacts as well as community memorabilia.

When the meeting is out for the day, attendees are never at a loss for something to do.

BIG MOUNTAIN RESORT

Ski Magazine has ranked Big Mountain the #1 resort in Montana five years running. Now that's Pure Montana. What's pure has never been much of a question here. Ever since 1935, when locals shouldered their planks, hiked to the top of Big Mountain, paused to take in the view, then danced their way down through chutes of powder, the cornerstone of pure has been big, uncrowned, giggle-inducing skiing. Today, however, recreation isn't limited to winter and the resort's full-service Glacier Village offers a scenic alpine setting for meetings and conferences of all sizes.

In summer experience a gondola or chairlift for a scenic ride to the 7,000 ft. Summit, 20 miles of mountain biking trails, separate hiking trails, tennis courts, horseback riding, fly casting school, the thrilling Walk in the Tree Tops, plus a variety of shops and restaurants. At the summit of the mountain, visitors will enjoy free concerts, the USFS Environmental Education Center, and Summit House bar and restaurant, all overlooking the breathtaking peaks in Glacier National Park, the Canadian Rockies and the Flathead Valley. In winter Big Mountain boasts 11 lifts accessing 91 runs over 3,000 acres of terrain covered in 300 inches of snow annually. Now that's Pure Montana.
